Career Objective

To serve the organization through hard work and knowledge acquired with the highest motivation as well as to build a successful career. Work effectively with consistency, discipline, and integrity in a creative and competitive environment based on strong commitment.

Experience

bitBirds Solutions

2021 – present | Dhaka, Bangladesh

Web Developer

I have completed various projects here. Remit is a recent currency exchange project that I have built recently from scratch and now I'm the project lead of this client. I have also built the e-commerce website, the LMS site, and Agency using Laravel and WordPress.

ThreeDotIt

2017 – 2018 | Dhaka, Bangladesh

Web Designer

During my three-month internship, I successfully completed more than five PSD to HTML projects that were pixel-perfect and W3C validated. Then I started there as a Web Designer and expanded my skill set to include PHP and WordPress theme development. I have created various primary blog and restaurant themes with front-end development expertise.
